+2 years of experience as a Full Stack developer. I easily adapt to circumstances, enjoy teamwork and I am always willing to learn. Moreover, new challenges are my principal source of motivation.

EXPERIENCE

SOLUTE

Full Stack Developer

Badajoz, Spain

October 2022 – Present

Responsibilities

- Be the reference person for Back-End (**Node.js/Express.js, FastAPI, API design, database design...**) and Front-End (**React, UI/UX design, Tailwind CSS...**) technologies and take initiative to learn new ones.
- Design and implement medium to large size features while reducing the system's tech debt.
- Make an impact on the whole team by proactively supporting other team members, helping them and looking for ways to improve the team processes.

Key accomplishments

- Collected the **requirements** and led the design of the **REST API** of a new internal product, which led to a huge improvement in developers' **productivity**.
- Joined a team from a multinational company that worked with **SCRUM** methodology as the reference Back-End developer. Led the technical design of the REST API new features and **highly improved its performance and security** by updating its framework to the latest LTS version and introducing new technologies, such as **database migrations**.
- Led the development of a **React**-based extension for another company's platform. In addition to the success of the project, the collaboration between both companies was strengthened for future developments.
- Redesigned weather forecasting team's website **User Interface (UI)** which had a huge impact on **User Experience (UX)**.
- Redesigned the weather forecasting team's REST API using the **FastAPI Python** framework.
- Defined the team's version control strategy and set up the continuous integration and continuous deployment (**CI/CD**) flow in **Gitlab** for all the team's projects.
- Deployed a new centralized download system for numerical weather models (developed in Python and connected to a **SQL** database for tracking and control) for the forecasting team.

EDUCATION

University of Extremadura

Computer Engineering in Information Technologies / Telematics Engineering in Telecommunications

Mérida, Spain

2017 - 2022

University of the West of Scotland

Computer Networking

Paisley, Glasgow, UK

2019 - 2020

COURSES

- [React - The Complete Guide 2023 \(incl. React Router & Redux\)](#)
- [Figma UI UX Design Essentials](#)

SKILLS

- React
- JavaScript
- UI/UX Design
- TypeScript
- Express.js
- Python
- FastAPI
- REST API
- SQL / NoSQL
- Tailwind CSS
- Node.js
- Java
- CI / CD
- Git
- Astro

LANGUAGES

- My first language is Spanish. Fluid in English (C1).
